

8. ADVANCED THERMODYNAMICS**UNIT: 52****Author: Prof. P.L. Dhar****MODULE – I**

S.No.	Title	CD No.
1.1	Basic Concepts	1275
1.2	Generalised Force	1276
1.3	Interaction by Contact	1277

MODULE – II

S.No.	Title	CD No.
2.1	Concept of Work	1278
2.2	The First Law	1279
2.3	The First Law - Examples	1280
2.4	The Second Law	1281
2.5	The Second Law (Contd.)	1282
2.6	The Second Law (Contd.)	1283
2.7	The Second Law..... Corollaries	1284
2.8	The Second Law..... Corollaries	1285
2.9	The Second Law Corollaries & Applications	1286

MODULE – III

S.No.	Title	CD No.
3.1	Analysis of Simple Compressible	1287
3.2	Analyzing Typical Processes – Equation of State	1288
3.3	Thermodynamic Property: Tables and Charts	1289
3.4	Generalized Charts for Other Properties - Applications	1290
3.5	Simple Elastic Systems	1291
3.6	Simple Elastic Systems (Contd.)	1292
3.7	Simple Magnetic Systems	1293
3.8	Simple Magnetic Systems (Contd.)	1294

MODULE – IV

S.No.	Title	CD No.
4.1	Basic Equation	1295
4.2	Basic Equations (Contd.)	1296
4.3	Second Law Analysis of Open Systems	1297
4.4	Second Law Analysis of Open Systems (Contd.)	1298
4.5	Availability	1299
4.6	Exergy	1300
4.7	Exergy Analysis - Flow Processes	1301
4.8	Exergy Analysis (Contd.)	1302
4.9	Endo-reversible Engines for Maximum Power Output	1303

MODULE – V

S.No.	Title	CD No.
5.1	General Relationships	1304
5.2	General Relationships (Contd.)	1305
5.3	Partial Molar Properties	1306
5.4	Problem Solving - Review	1307
5.5	Equation of State for Mixtures	1308
5.6	Mixtures of Gases and Vapour	1309
5.7	Equations of State for Real Gas Mixtures	1310
5.8	Equations of State for Real Gas Mixtures (Contd.)	1311
5.9	Chemical Potential and Fugacity	1312
5.10	Chemical Potential and Fugacity (Contd.)	1313

MODULE – VI

S.No.	Title	CD No.
6.1	Conditions of Equilibrium	1314
6.2	Analyzing Phase Equilibrium	1315
6.3	Few Problems	1316
6.4	Extremum Principles	1317
6.5	Stability Analysis - Examples	1318

MODULE – VII

S.No.	Title	CD No.
7.1	Mass and Energy Balance	1319
7.2	Bond Energy + Second Law Analysis of Chemical Reactions	1320
7.3	Reaction Equilibrium	1321
7.4	Work Potential of a Chemical Reaction	1322
7.5	Chemical Energy	1323

MODULE – VIII

S.No.	Title	CD No.
8.1	Basic Postulates	1324
8.2	Thermoelectric Phenomena	1325
8.3	Thermodynamics and Ethics	1326
