Faridabad boy tops IIT entrance exam

New Delhi: The landline at Arpit Agarwal's Faridabad home rang at 5.45am on Friday. It was the IIT Joint Entrance exam chairman, congratulating him on ranking first among 4.8 lakh aspirants who took the test this year.

Arpit was confident he had done well, but first rank came as a huge surprise. His winning formula is something of a surprise too—four hours of studies a day and a healthy dose of Facebook and net surfing to relax.

I knew my score and my coaching class had done some research and informed me that I may be coming first,” says Arpit. “But I was not completely sure. I deactivated my Facebook profile day before yesterday; I knew it would flood with friend requests if I did come first,” he laughs.

As of now, he plans to specialize in computer science at IIT Delhi and then hopefully get an MBA degree from the Indian Institute of Management (IIM).

A total of 70,671 candidates appeared in JEE 2012 from IIT Delhi zone, of which 2,906 have got the call for admission counselling.

IIT topper studied four hours a day

Times of India, ND 19/05/2012  P-7

New Delhi: Faridabad boy Arpit Agarwal, this year’s IIT-JEE topper says he did not study all day nor did he pull all nighters to make it to IIT.

“I studied for four hours every day. I used to unwind too by networking with friends on Facebook and surfing on the internet. I think I managed time well. My family supported me through the year, they made sure I wasn’t disturbed when I was studying.” But he did stay away from family get-togethers and functions for almost a year to avoid getting distracted from his routine. A Dan Brown fan, Arpit says he relaxed with books or popular Hindi music.

Despite excelling in mathematics, Arpit feels pure science or research is not for him. “IIT has the best brains. I want to learn from them while I am at IIT but after that I want to get a degree in management. It’s important to learn the fundamentals of management to perform well in any field. Even if I join a software company, a management degree will make me a more efficient worker,” he says.

Arpit’s advice to IIT aspirants is to be focused and manage time well. “I managed time in a way that I could finish my syllabus and revise as many times as I wanted. I think aspirants should manage time intelligently.”

Women double IIT count since 2011; Kota quota stays

Each year, young men max out seats at the IITs, but the count of women who secured the JEE rank has doubled to 2,886 since 2011. Students from IIT-Bombay zone (home to Kota) dominated the list this year too, but the Chennai zone claimed 8 of the top-20 slots. P 19

Arpasia Agarwal, Arpit’s mother, watches for it. “He really didn’t study for long hours. He used to sleep around 11pm and wake up at 7am. We never had to nudge him about studying. He knew what to do. We just trusted him and tried not to disturb him,” she says. He has been topping exams all through school, though. “Arpit performed excellently in all science Olympiads and is a National Talent Search Examination (NTSE) scholar. He came first in the Mathematics Olympiad too,” says the proud mother.

“I stopped teaching Arpit when he was in class XI. Since then he has been studying on his own. I don’t know what motivates him,” says Arpit’s father.

Archana Agarwal, Arpit’s mother, watches for it. “He really didn’t study for long hours. He used to sleep around 11pm and wake up at 7am. We never had to nudge him about studying. He knew what to do. We just trusted him and tried not to disturb him,” she says. He has been topping exams all through school, though. “Arpit performed excellently in all science Olympiads and is a National Talent Search Examination (NTSE) scholar. He came first in the Mathematics Olympiad too,” says the proud mother.

“I stopped teaching Arpit when he was in class XI. Since then he has been studying on his own. I don’t know what motivates him,” says Arpit’s father.
No. of girls cracking
IIT-JEE doubles in a yr

Eight Out Of Top 20 Are From Southern India

Mumbai: Each year boys maxi
out seats at the Indian Insti-
tutes of Technology. But the
count of girls who secured JEE
ranks has doubled to 2,886 since
the last edition of the exam.
Yet, the tech schools will on
another front continue to be an
unequal world: students from
the IIT-Bombay zone (home to
Kota) dominate the list of
selected candidates. But the
southern zone has bagged the
credit for having eight of the
top 20 rankers, mostly from
Andhra Pradesh.

B-town boys have bagged
the top ranks: Faridabad's Ar-
pit Agrawal topped the JEE
with a score of 385 (out of 401); he
is followed by Chandigarh's
Bijoy Singh Kochar and Bhi-
lal's Nishanth Koushik.

Priya Inala - all-India rank
(AIR) 21 - from Andhra Pra-
desh is the girls' topper. Science
is this Asian Physics Olympiad
gold medallist's first love. She
is joined by two other girls in
the top 100. This year, 1.5 lakh
girls took the JEE free of cost.
Clearly, the plan to not charge
them worked: the headcount of
successful girls is exactly dou-
ble last year's 1,443.

Three boys tied at the score
of 369: Jaipur's Nishit Agrawal
(AIR 6; Bombay zone topper),
Anant Gupta (AIR 7; Roorkee
zone) and Kandivli's Manik
Dhar (AIR 8; Maharashtra topper).
Competition was con-
pounded by the fact that JEE
2012 was tougher than its pre-
edecessor. "The cut-off has dropped
to 172. Last time, it was 229."
said Avinash Mahajan, IIT-
Bombay's JEE chairman.

An analysis of the top 100
students shows that 31 hail
from the western zone and 38
from the Madras zone. The
Bombay zone also has the high-
est number of candidates in the
top 1,000 — 294.

Out of 33,057 candidates
from Jaipur, many of whom
prepared from coaching cen-
tres in Kota, 2,677 made the cut.
A total of 4.8 lakh candidates
appeared for JEE.

Nishanth Rumandia (AIR
4) is the OBC topper; Zubin
Arya (AIR 94) came first on the
SC merit list; and Vikas
Meena (AIR 642) topped the ST
merit list.

In all, the 15 IITs, IT-BHU
and ISM, Dhanbad, have 9,647
seats, apportioned as: 4,722
for the general category, 2,101
for OBCs, 434 for minority
OBCs, 1,403 for SCs, 708 for STs
and 279 for physically chal-
enged students.
ENGINEERING EXAM

IIT-JEE results out, 27% more students shortlisted this year

IT Correspondent

NEW DELHI: The 47 lakh students’ wait was finally over on Friday, when the Indian Institute of Technology — Joint Entrance Examination (IIT-JEE) results for 2012 were declared.

Arpit Aggarwal, a student of Faridabad’s Modern Vidya Niketan, topped the rank, while Bijoy Singh Kochhar from Chandigarh came in second and Nishant Koushik from Bhiwai was awarded the third rank.

This year, the IITs shortlisted 17,462 students — a major increase from last year’s 13,800 students. These students, who will be gunning for the 15 IITs in the country, will now have to register online for counselling.

“Since counselling will be done online, we opened counselling registration on Friday. Students must fill in and submit the fee challan latest by June 9 because we will close counselling entries on June 10,” said GB Reddy, chairman, IIT-JEE 2012.

Counselling, however, will not necessarily translate into a secured seat in the IITs for the aspirants. We have shortlisted twice the number of students as compared to the number of seats. So, there is no guarantee that a student who has got a rank will also get a seat,” Reddy added.

This year around, the IITs rolled out several changes in not just the application process, but also the number of seats. The criterion for withdrawal of admission underwent a sea change. The IITs also uploaded the answer key to the IIT-JEE — a move that was welcomed by aspirants.

Now, several IITs have increased the number of seats as well.

“There have been some changes in the number of seats at some IITs. While IIT Delhi and Hyderabad have increased the number of seats, IIT Roorkee has reduced its number of seats,” he said.

This time students who withdrew admission after payment of fees can appear for the exam, again, in 2013.

Prabhakaran and Shaswati Das

NEW DELHI: Friday’s result brought unceasing jubilation for IT-year-old Arpit Aggarwal, the all India IIT-JEE topper. He aced the exam with a score of 385 out of 401.

But instead of losing himself in the celebrations, Aggarwal prepared for the counselling session, for which registrations have already begun.

He will choose IIT Delhi in computer science — a subject that had fallen out of favour with the topper in 2011.

“Last year, the topper did not opt for computer science, but this year it seems that the subject will be chosen by Arpit Aggarwal,” said GB Reddy, chairman, IIT-JEE 2012.

A student of Faridabad’s Modern Vidya Niketan, Aggarwal said that cracking the IIT-JEE was no rocket science.

“All you need to do is clear your concepts. The pattern of the IIT-JEE is very similar to what we are taught in school. So, in addition to regular schoolwork, you just need to put in five hours of focused study every day,” Aggarwal said.

For Aggarwal’s parents and teachers, Friday’s result was nothing short of a dream. “I was surprised to find my son’s name at the top of the list; it became difficult to control my emotions,” said OP Aggarwal, his father.

ARPIT AGARWAL from Faridabad secured All-India Rank 1 scoring 385 out of 401. Arpit cleared the exam in the first try itself. Son of an engineer, Arpit intends to pursue a course in Computer Science at IIT-Delhi. “I studied for four to five hours every day,” said Arpit.

BUDDY SINGH KOCHAR from Chandigarh came in second with a score of 377, while NISHANTH N KOUSHIK from Bhiwadi claimed the third rank also with a score of 377.

The fate of 4,79,000 candidates who appeared for the Indian Institute of Technology Joint Entrance Exam (IIT-JEE) was decided on Monday, with the results being declared on Friday. As many as 2,900 candidates from the Delhi zone were shortlisted for counselling this year.

The number of candidates who appeared for the entrance exam held on April 8, have been selected for counselling for the 9,647 seats across IITs and other institutions, said Chairman, JEE, G B Reddy at IIT-Delhi.

According to Reddy, there were 17,000 candidates who cleared the entrance exam in the general category, compared with the 2,900 candidates in other categories. The number of successful candidates in the reserved category was three times that of available seats.

The total number of seats has been increased by four this year, while some internal changes have been carried out in many courses within the institutes.

Arpit Agarwal from Faridabad topped IIT-JEE 2012 with maximum marks of 385 out of 401. The last-ranking candidate this year scored 171 marks.

Of the 15,431 girls who appeared for both exams in IIT-JEE 2012, more than 2,800 secured a rank and 1,900 have been shortlisted for counselling. Reddy said, “There has been a 40 per cent increase in the number of girls who have qualified this year.”

Last year, 1,443 girls managed to crack the IIT-JEE in the general category. Three girls have made it to the top 100 but only 10 girls feature in the top 2000 ranks in the general category. Girls fared slightly better in the reserved category.

The Indian Institutes of Technology (IITs) said on Friday they will allow students to appear for the entrance test one extra time if they surrendered their seats—either satisfied with their ranks or the subjects they are allotted during counselling.

The effort is to fill nearly 9% of the seats in IITs that generally go vacant every year because of students opting out of the system after getting selected.

Last year, some 760 seats remained vacant at the elite schools.

The 15 IITs, the information technology department of Banaras Hindu University, and the Indian School of Mines, Dhanbad, together conduct the joint entrance exam (JEE) and admit at least 9,600 students at the undergraduate level.

"What we are doing is providing an exit policy," said G.B. Reddy, chairman of the JEE committee. "And in return the concerned student can get an opportunity to appear for the entrance exam next year to improve his ranking, and get a seat and subject of his choice.

Students can give up their seats before the final round of allotments and receive a deposit refund of around ₹40,000. Until now, students weren't allowed to reappear for the test if they accepted a seat but chose not to join the course, nor were they refunded the money.

Some 700 to 800 more students will get an opportunity to study in the IITs as a result of the move, said S.M. Ishitaque, deputy director of administration at IIT-Delhi, the institute organising the entrance test this year.

The IITs have also begun posting JEE answer papers on their websites. The JEE ranks were declared on Friday. Of the 480,000 candidates who sat for the exam, 24,112 secured ranks and 19,426 were short-listed for counselling for admission to 9,647 seats, Reddy said.
IIT-JEE topper watched movie on exam eve

A total number of 4,79,651 candidates appeared for both papers of the exam on April 8.

Sowmya Ashok

NEW DELHI: Delhi-based Arpit Agrawal, who came as all-India number one in IIT-JEE on Friday, revealed some of the secrets of his success to The Hindu.

"I watched a movie the day before my exam," he said. But it required some coaxing to get the movie's title out of him. "Hum Aapke Hain Kaun. But I really wish you don't print that," he laughs. "I was definitely lucky that it was on TV. It was loaded with so many emotions [that all the tension of the exam was driven from my mind]."

A student of Modern Vidya Niketan in Faridabad, Arpit says he does not believe that topping the exams comes down to the number of hours of preparation. "Everyone requires different hours to prepare. The best way is to revise what you learn on the same day."

Yet to decide on course

He says he is yet to decide which course or IIT branch he will opt for: "Tentatively, I am thinking about Computer Science Engineering in IIT-Delhi. But I am also considering IIT-Bombay's electrical engineering course."

His father, O.P. Agrawal, an assistant engineer with the Central Public Works Department, is thrilled with Arpit's result. He is keen that his son goes to IIT-Delhi.

A total number of 4,79,651 candidates appeared for both papers of the exam, which was conducted on April 8. Of the total, 24,112 have secured ranks in various categories and 17,462 shortlisted for counselling for admission to 9,647 seats in the 15 IITs, IT-BHU, Varanasi, and Indian School of Mines-Dhanbad.

"We are not going to call everyone who got a rank. The number of people who will go in for counselling are more than twice the number of available seats," said JEE-Chairman G.D. Reddy.

"Anyone who got a rank between 9,723 to 18,000 will not be called in for counselling. However, institutes like the Rajiv Gandhi Institute of Petroleum Technology and the Indian Institute of Science, Bangalore, will admit candidates based on IIT-JEE results," he said.

This year, 1,50,431 girls appeared in both papers of IIT-JEE, out of which 2,886 secured ranks and the first 1,908 were shortlisted for counselling.

"Online counselling began at noon on Friday. Shortlisted candidates are not required to report in person to any of the institutes for counselling," said Mr. Reddy, adding that the candidate would be eligible on payment of the counselling fee of Rs.500.

"The last day to fill the choice of courses is 5 p.m. on June 10."

While the first seat allotments would be made on June 14, the second round would be released on June 25. The third and final rounds would be done on July 6.

"For the first time this year, an opportunity is provided to withdraw the accepted seat before the final round of the allotment. Candidates will be reimbursed for the same and will be permitted to write the exam next year," said Mr. Reddy.
Faridabad teen scales pinnacle of IIT glory

by Narinder Kapur, Vikas Kahol and A. Srinivas Rao

In New Delhi/Chandigarh/Faridabad

THE anxious wait for the results of the IIT-JEE, the joint entrance examination for the prestigious Indian Institute of Technology, ended on Friday, Arpit Agarwal from Faridabad has topped the test. The second and third spots have been bagged by Bijoy Kochhar from Mohali and Nishant from Bhilai, respectively.

I. JEEVANA PRIYA from Hyderbad, with an all-India rank of 21, has topped among the girls. Men, too, speak a lot of the same thing, but their marks were a result of the test. Now they have prepared to crack the same entrance test and do well in the exams.

Arpit celebrates with his mother at their Faridabad home.

I. JEEVANA PRIYA, HYDERBAD

Arpit secured the sole spot in Mumbai to take part in the International Physics Olympiad. But her mother feared she had no plan to join the IITs.

Faridabad boy Arpit tops IIT-JEE
Mohali boy emerges second; Rajpura lad seventh

TRIBUNE NEWS SERVICE

CHANDIGARH, MAY 18
The month of May has been exceptionally good for Haryana academically speaking. If on May 4, Shena Aggarwal of Yamunanagar topped the civil service examination, today Arpit Aggarwal of Faridabad stood first in the IIT joint entrance examination (IIT-JEE).
After, the result was declared this morning, Arpit said although he was optimistic of clearing the exam with high grades, he was not expecting to top it. He, however, said the score of 385/401 did not surprise him.
The number two slot in the IIT-JEE results was alsoBagged by the region. Bijoy Kocher of Mohali stood second in the national ranking. He was closely followed by Anant Gupta of Rajpura, who has stood seventh.
Interestingly the parents of both Bijoy and Anant are doctors who whole-heartedly supported their sons in their preparation.

Boys outshine girls in IIT-JEE 2012
Super 30 does it again

6.2% boys get ranks against 1.9% girls
Only 3 girls in top 100 all-India rank list

ADIT TANDON/TNS

NEW DELHI, MAY 18
Boys have outshone girls and managed to secure top ranks in IIT-JEE 2012 as compared to girls.
Out of the 1,90,431 girls who appeared for the test held on April 8 for admission to 15 IITs, only 2,886 secured ranks in the merit list announced by the institutes today.
This comes to be 1.9 pc only. As against this, 6,2 boys who appeared for the exam secured top ranks. Out of 3,37,917 who took the test, 21,226 were ranked among the top.
In the reserved categories, SCs were the best performers: As against 3.5 pc of the OBCs who secured ranks, 7.4 pc SCs, 5.9 pc STs and 7.2 pc physically disabled managed to get ranks, respectively.
In all, as many as 4,79,651 candidates sat for the exam in both the papers and out of them 2,112 secured ranks in various categories of the toppers.

TRIBUNE NEWS SERVICE

NEW DELHI, MAY 18
In another huge accomplishment, 27 of the 30 students coaching from Bihar's Super 30, a free coaching centre for underprivileged students, have cracked the highly competitive Indian Institute of Technology-Joint Entrance Examination (IIT-JEE) this year.
Director of the Centre, featured in the Times' last year among the "Best of Asia 2010" list, Anand Kumar said, "It is good news that this year, 27 out of the 30 students made it to the IIT-JEE. It has underlined the fact that with proper preparation, students from poor families can also reach the prestigious IITs."
The successful candidates include wards of a truck mechanic, a farmer, a daily-wage labourer and vendors.

SUCCESS STORY

Twenty-six out of 30 students clear the exam.
The successful candidates include wards of a truck mechanic, a farmer, a daily-wage labourer and vendors.

Last year, 24 students of the institute had cleared the IIT-JEE. Super 30 takes in only 30 students a year for free coaching.
Students from poor families have to first pass a competitive test to get into Super 30 and then commit themselves to a year of 16 hours a day study routine. Coaching, food and accommodation are free for students.
Anand said the institute was supported by income generated from his Ramanujan School of Mathematics, which has students who can afford to pay fees.
In 2003, the first year of the institute, 18 students had made it to IITs.

IIT-JEE results: Kanpur zone puts up a poor show

IT Correspondent

LUCKNOW: Candidates appearing from IIT-Kanpur zone continued to perform badly in the IIT-JEE exam this year too. Of the seven zones, candidates from the IIT-K zone stood sixth in the list of zones in number of qualified candidates. Only 25.9% candidates were short listed for counselling from the IIT-K zone.

IIT-Gurugram is at the bottom of the list. With 52.1% short listed candidates, IIT Bombey zone remained at the number one spot while IIT Delhi stood second at 52.7%.

Results of the Indian Institute of Technology Joint Entrance Examination (IIT-JEE 2012) for admissions to various courses in the IITs, IIT-BHU and ISM Dhanbad were declared on Friday.

A total of 78,992 candidates appeared from the IIT-K zone but only 2,101 were short listed for counselling. In the last three years, there has been a marginal improvement in IIT Kanpur zone’s performance. In sharp contrast, 73,364 candidates appeared from the Bombay zone out of which 4,235 were selected for counselling. IIT Madras zone did equally well where 3,485 out of 71,830 candidates were short listed.

But this is not good enough,” an educationist said. “There has not been any remarkable improvement in the trend. The only consolation is that we have not slipped from where we stood last year. Students from this region need to put up a better show if they want to match or come anywhere close to the candidates appearing from Madras, Bombay and Delhi.

A total number of 4,70,651 candidates appeared in both papers of IIT-JEE 2012, which was conducted by seven of the IITs on April 6, 2012. Out of the total number of candidates, 24,712 candidates have secured ranks in various categories and 16,426 have been shortlisted for counselling for admission to 966" seats in the IITs at Kharagpur, Bombay, Delhi, Guwahati, Kanpur, Madras, Mandi, Patna, Rajasthan, Roorkee and IIT-BHU Varanasi and BSN Dhanbad.

Candidates of IIT-JEE cheer for their success here on Friday, Deepak Gupta/PTI

IN A NUTSHELL

• This year, 16,049 girls appeared for both the papers of IIT-JEE 2012 out of which 2,908 have secured ranks in IIT-JEE 2012 and the first 1,908 have been shortlisted for counselling.
• The counselling will be open to the shortlisted candidates from May 10 (12pm). All the shortlisted candidates are expected to fill their choice of course up to 5 pm on June 10.
• Candidates are not required to report in person at any of the institutes for counselling. All persons with physical disability (PwD) who have secured a rank in any category including those ranked for PwD preparatory course will have to report in person to the counselling institutions for a checkup before a specially constituted medical board.

The web release of the first seat allotment will be made on June 14 (Thursday). Candidates should deposit the registration fee on or before June 22. Seats not accepted in the first allotment will be allocated on the AIR rank basis. The second seat round allotment will be released on June 25, 2012. The third and final round of the allotment will be done on July 8.
Bihar’s Super 30 adds 27 more stars to IITs

ANAND S.T. DAS
PATNA, MAY 18

When Diwakar Kumar’s father, a poor truck mechanic in Munger in Bihar, first knew of the difference between IIT and ITI and tried not to use the two interchangeably while speaking, he thought his son could never make it to the hallowed IITs. But the dreams of the father and the son came true on Friday.

With the free coaching he got at the Super 30 institute for underprivileged students in Patna, Mr Kumar cracked the prestigious Indian Institute of Technology-Joint Entrance Examination (IIT-JEE) 2012. There was raucous celebration at the renowned Institute in the Bihar capital’s grubby Mithapuri area soon after results came out on Friday morning as 27 out of its 30 students had cracked the tough competitive entrance examination, bringing glory to its

Super 30 founder Anand Kumar celebrates along with his students in Patna on Friday. — PTI

founder and educationist Anand Kumar for the 10th consecutive year.

“My father did not believe it for a moment that I was selected to study at one of the IITs. But he was overjoyed to learn of my success and instantly spoke his blessings for Anand sir,” said Diwakar. “Without Super 30, our IIT dreams would have remained just dreams due to my family’s poverty,” said the teenager.

KANDHAMLAL
SHOPKEEPER’S
SON QUALIFIES

AKSHAYA KUMAR SAHO
BHUBANESWAR, MAY 18

Eighteen-year-old Rakesh Nayak, the son of a small-time shopkeeper of Sarangagada village in Kandhamal district, felt quite ecstatic when chief minister Naveen Patnaik on Friday patted him on the back congratulating him for securing 154th rank in the all-India merit list of the IIT-JEE.

“It’s a dream come true. I did not expect I would ever be felicitated by the chief minister. Although I expected to figure among the top 500, I did not hope to secure 154th rank. It really feels extremely good,” Rakesh said.

The boy also stood 18th in the list of Other Backward Class category students.

आईआईटी जेईई
परीक्षा में हुए पास

पटना, (भारा)। बिहार के पुलिस महानिदेशक और शिक्षाविद अभ्यान्त के 51 शिष्यों ने आईआईटी-जेईई 2012 की परीक्षा में इस बार सफलता हासिल की है। बिहार के पुलिस महानिदेशक ने बताया कि अभ्यान्त के दिशा निर्देश में तीन रहे छह सेंटर के 88 बच्चों में से 51 ने आईआईटी जेईई की परीक्षा उत्तीर्ण की है। बिहार से सुपर-30 रहमानी, पटना और सुपर -30 मगध, गुजरात से कुल 10 बच्चों को सफलता हासिल हुई है। अभ्यान्त के दिशा निर्देश में गरीब और मेधावी बच्चों के लिए बिहार, उत्तर प्रदेश और असम के छह केंद्रों पर आईआईटी जेईई की परीक्षा की तैयारी के लिए कोचिंग दी जा रही है।
IITs announce new policy for ‘surrender of seats’

Mousumi Basum NEW DELHI

Much to the relief of the students who wanted to opt out of IIT, having not secured their more-preferred programme of study, there will be an exit policy for the first time and after six decades, the Joint Admission Board of IIT announced changes in its admission policy on Friday.

The JEE 2012 Organising Institute, IIT Delhi, announced of “surrender of seats” which was otherwise “blocked” earlier irrespective of the fact that the candidate may not avail the seat.

The reforms in IIT-JEE admissions are being carried out due to the Public Interest Litigation that is pending in Delhi High Court after being remitted back from Supreme Court. The PIL was filed by IIT Kharagpur’s Computer Science Professor Rajeev Kumar.

The Pioneer had reported on Thursday that due to reduction in aggregate cutoffs prefixed at 35 per cent, there would be a large pool of candidates of around 25,000 who would be declared qualified for 9,600 seats in IITs and ISM.

The figures were fairly established as 24,112 have secured ranks in various categories and 19,426 have been shortlisted for counseling for admission to 9,647 seats in 2012. This pool is 3.5 times the total number of seats available and will unnecessarily give an illusion of getting entry into IIT to all such “qualified” candidates.

To avoid the above, IIT took a departure from their published admission policy.

But as per the new policy announced on Friday, online filling of choices would be restricted to a smaller set of 19,426 candidates, who are shortlisted for admission counseling out of which only 9,647 will get admission.

Appreciating the move, experts pointed out that 10,000 candidates would be benefited by this newly introduced policy of surrendering the seats, as it would not deter them from taking a second attempt in JEE 2013.

Similarly as per published information in the JEE 2012 website and Information brochure released in October 2011, one can see that there is no “provision for surrendering seats.” But for the first time in six decades it mentioned of surrender of seats unheard of in JEE so far.

However, the surrendering can be done now at the final or third stage of seat allotment only. In other words, IIT formally announced an Exit Policy at the last stage.

According to the experts, only part of the policy stands corrected. According to them, surrendering of seats should be done at initial stages also as this has a cascading effect.

Surrendered seat by one would be allocated to another, who may again surrender for a third person.
Seats reserved for disabled in IITs to go to others if vacant

Sowmya Ashok

NEW DELHI: As a mechanism to fill vacancies in the reputed Indian Institutes of Technology, if seats reserved for persons with physical disabilities (PD) remain vacant they will be converted to regular seats in the respective categories. Announcing the IIT-JEE 2012 results on Friday, JEE Chairman G. D. Reddy also elaborated on the initiative to tackle the issue of vacancies in IITs across the country.

“We had written a note to the Commissioner regarding allotment of unfilled seats in the PD category,” said Mr. Reddy, adding that the Commissioner who heads the office of the Chief Commissioner for Persons with Disabilities did not have any objections to the same. “The first preference will go to those in the PD category. They are also those who qualify for the PD preparatory course which is a one-year basic course before joining the B. Tech. course,” he said.

Deputy Chief Commissioner for Persons with Disabilities T. D. Dhariyal said there was no point keeping the seats vacant. “There is no law to keep those seats vacant. No point will be served,” he said, adding that during counselling persons with disabilities should be clearly told what posts or jobs are available for them.

For counselling, persons with physical disability who secure a rank in any category including those ranked for PD preparatory course have been asked to report in person to the counselling institutes for a check-up before a specially-constituted medical board. These candidates must register for medical examination and choose the IIT where they wish to be examined, a soft copy of which is already displayed on the JEE website. For the convenience of such candidates, for the first time, medical boards are constituted at the IITs in Kanpur, Kharagpur, Mumbai, Delhi, Guwahati and Chennai.

The number of PD category candidates who have qualified for the preparatory course is 124 this year.
मिस्त्री-गार्ड के बेटों को आईआईटी में सफलता

धनबाद में डूक मैकेनिक दिवस प्रसाद का पुजा आशीष रंजन आईआईटी की व्रत सेवा उपचार कर जाता है।

आशीष कहते हैं कि उनके पिता को यह भी बड़ी मातृभूमि की आईआईटी होती क्या है? वह तो सुझाव देकर मैकेनिक बनने के सपना पाते हुए थे लेकिन शुरू में इंजीनियर बनने के सपना पाते हुए था।

पद्मा कहते हैं कि अगर सच्ची लगन ही और उन्नत पर सफल मानक नहीं है, तो कैसे भी मैकेनिक मौलवी नहीं है। इसके बाद के काल में इंजीनियर बनने का सपना पाते हुए थे लेकिन एक डूक मैकेनिक के बेटे को सफलता चाहा था।

Students against change in exam pattern

Vanita Srivastava
vanita.srivastava@hindustantimes.com

NEW DELHI: Even as the government has decided to keep mum on the new pattern of the IIT exam till May 28, this year's top rankers feel that the current system should continue and there should be no change.

"The present system is good, but it is being slightly misused. I don't think there is any need for a change in the pattern, but if the government has proposed it, it must have something in mind," said Arpit Agrawal, topper of IIT-JEE 2012.

Bilaspur's Nishanth Koushik, who got an overall rank three, however, is more vocal against the proposal for change.

"What is the need to have a common engineering exam. The more the number of exams, the greater the chances of selection. What if you are unable to perform well on that day, then you lose out on all colleges," said Koushik, adding, "The boards should not be neglected, but giving 40% weightage to board marks for JEE selection is also not required."

And it is not just the students who are against the idea. The IIT faculty has also protested against any move of the government to change the pattern of the exam.

A 30-minute video uploaded on YouTube by Prof Sanjeev Sanghi, president, Faculty Forum, IIT-Delhi, talks about the conceptual and technical flaws in the proposed changes, and possible solutions.

"The basic objectives behind the change is to take down the need for coaching and stress in students. I don't see how this will do that," said Sanghi.
Govt may set up universities for research

New Delhi, May 18: The government on Friday said it is considering a proposal for setting up of Universities for Research and Innovation, which aims at establishing world-class institutes focused on high-quality research.

"The concept of universities aiming at world-class standards has been developed...these universities are called Universities for research and Innovation...A legislative proposal for setting up of Universities for Innovation is under consideration of the government," MoS in the Human Research Development ministry E Ahamed informed Rajya Sabha in a reply. PTI
Govt trying to ascertain demand of Akash from VCs

NEW DELHI: No norms had been laid down for distribution of first phase of one lakh Akash Tablets though Government has written to Vice Chancellors of Universities to ascertain the demand.

This was stated by Minister of State in the HRD Ministry E Ahamed on Friday while responding to a question in Rajya Sabha.

Ahamed said that after launch of the Akash Tablet in October 2011, higher technical specifications including 700 MHz Cortex A8 processor and a 3200 mAH battery and capacitative touch screen at the same price have been necessitated to overcome the difficulties observed in the device.

'Earlier this project for procurement and testing of 1,00,000 low cost tablets was assigned to IIT Rajasthan but in view of certain intractable problems being faced by them, now the project has been transferred to IIT Bombay,' Ahamed said.

'Since the first phase of 1,00,000 tablets are targeted for students in higher technical educational institutions so as to ascertain technical feedback on its operations and usability, no norms for distribution of tablet have been laid down,' he added.

Ahamed also said that letters had been written to Vice Chancellors of Universities, heads of higher educational institutions and state governments to ascertain demand for Akash Tablets.
PGI to celebrate research achievements every year

Vishav Bharti
vishav.bharti@hindustantimes.com

CHANDIGARH: The Post Graduate Institute of Medical Education and Research (PGIMER), Chandigarh, will now celebrate its research achievements every year. The institute has decided to observe an annual ‘PGI Research Weekend’.

Sources in the PGIMER administration said the initiative was taken in the wake of the golden jubilee celebrations of the institute, which are going to start from July 7. The celebrations will continue for the entire year and conclude on July 6, 2013.

The aim of the new initiative is to highlight the research achievements of the PGIMER faculty, resident doctors and scientists.

The dates for the PGI Research Weekend have been finalised for August 11 and 12. A senior professor at the institute on the condition of anonymity said the initiative would provide an opportunity for everyone to showcase their last year’s research achievements. “The new initiative will allow us to know more about research by colleagues in our own institute, foster collaboration and bring in some degree of openness,” he said.

This year’s focus will be on the findings of the schemes and research projects funded by the PGIMER as well as the extra-murally funded schemes. Sources revealed that each department of the institute would give a presentation regarding its scientific achievements, breakthroughs and discoveries.

The presentation format is yet to be decided. “But there would be a lot of posters with some oral presentations,” said a faculty member.

Besides the presentations, the institute is also planning to invite scientists and clinicians of international repute for interaction. These pioneers will provide their inputs and feedback on PGIMER research and also share their own research experiences.

Besides the PGI Research Weekend, the institute is also planning to hold a number of activities during its golden jubilee celebrations.

ALUMNI MEET TO BE HELD
The PGIMER has planned a two-day alumni meet, which will be held on December 15 and 16. A large number of alumni from across the world are expected to participate in the meet.

The institute is already compiling lists of its former students and has also issued a notice to them to register themselves for the alumni meet. Established in 1963, the institute in the past five decades has produced more than 5,000 specialist and super-specialist doctors.
