## *Central Library*

### Orientation/Workshop on eBooks

Central Library IIT Delhi is in the process to build up its eBooks collection. A committee is constituted by Advisory committee for Library (ACL) to finalise the guidelines of the procurement of eBooks. The committee has given some of its recommendations. One of the recommendations was to get the free trial access activated so that the users can come to know the usefulness of eBooks and can be familiar with the features of different eBooks platforms. In view of above, the library has initiated free trial access of the publishers namely McGraw Hill Education, Cambridge University Press, DeGruyter, Cengage Learning Databases and is in process to activate some others. In view of above Orientation/Workshop is being organised on existing free trial access of eBooks. The Orientation/Workshop will cover introduction of platform, search strategy, access and other features of eBooks.
