For years I have been driving a old used car with a lot of mileage, and I hate it. It gets me where I need to go, but I’m tired of fixing leaks and broken parts all the time. It’s annoying that I have to take it to mechanic every times. Even when they take care of everything, I know in a week I’ll just end up going back there, and I’ll have to pay a lot of money for their services, which is not something I would like to do.

I have finally decided that I am not going to do it anymore. I have decided to buy a new car! Unfortunately, I have a problem. Do I want something fast? Do I want something big? Do I want something stylish? Something economical? I has so many choices, that I don’t even know where to begin. I am not sure if I will be able to make the decision at my own. I don’t have a lot of money either, so I probably don’t have much option.

After I did some research, I knew that I would need some expert...

For years I have been driving an old used car which I hate. It gets me where I need to go, but I'm always breaking parts all the time. It's annoying that I have to fix it every time. Even when I take care of everything to the best of my ability, I just end up going back to the dealership, and I'll have to spend a lot of money for services, which is not something I would like to do.

I have finally decided that I am not going to continue to fix this car. I have decided to buy a new car! Unfortunately, I have very little money. What do I do? I need something fast. Do I want something big? Do I want something that will hold a lot of things? Do I want something economical? I have so many choices.
A detailed PDF report is available, which can be submitted to the Faculty/Guide by the student/scholar which exactly shows what areas have been corrected. The teacher spends time only looking at areas where the student has not accepted correction and would need the guide’s inputs.
